How does REIKI really FEEL?

*Like waves...powerful...a rush of tingling...
rejuvenating...like light...I felt numb...I
couldn't feel my body...It was as if I was
floating...felt so comfortable I went to
sleep... as if in a trance... like I was
embraced by a cloud...energizing...
glistening...my pain was gone...my chest
feels clearer...I feel so relaxed... it was too
short... a pure connection to Spirit...*
