Independent Distributor

Visit <http://TheHealMobile.com> for more information about detox, cleansing and using essential oils.

The HealMobile delivers Foot-Detox services

Self-Healing through the Feet

A Foot Detox is a bioenergetic cleansing, much like sweating from the feet. We use **Phoenix Foot Bath**, the best on the market, to help the body release long-standing toxins like **heavy metals, parasites, undigested food, yeast (Candida) and cellular debris**. Bad bacteria and microorganisms have invaded your system for long enough!

These are some signs you need to cleanse--rashes, boils, constipation, IBS, migraines, shooting pains, arthritis, high blood pressure and sugar, PMS, tumors, low energy. 10-15 water remedy Foot Detoxes can help end lethargy and illness.*

Consultations: (201) 966-1170

Essential Oils, The Missing Link

Like good food, essential oils help the body to heal itself, help the mind to know itself, help the spirit to express itself and help the soul to nurture itself.

We use Young Living Essential Oils in the **Vita Flex** technique to massage feet, ankles and legs and facilitate more lasting detoxification benefits. We work on the sole of each foot related to body systems as pictured above.

Then we give you the YL protocol to revitalize yourself fully over time.

Appointments: (201) 966-1170

**Enjoy great health
and vitality all the time.**

What the Water Says*

Color/Consistency	Possible Detox Meaning
White / cheesy	yeast / lymph
Yellow	kidney, urinary, m/f reproductive organs
Black / flakes	liver / heavy metals
Brown/muddy	liver, tobacco, cell debris
Orange	joints
Greenish	gall bladder, pancreas
Red flakes	blood clot particles

* These statements are not confirmed by the FDA or any government agency although research is ongoing and testimonials are legion.
